## EXPERIENCE

### Postdoctoral Scholar

Department of Geography, Environment, & Geomatics, University of Guelph  
September 2023 to present

- Collaborating with a national research team to develop policy maps and evaluate governance models to identify opportunities for GHG mitigation within Canada's food value chain
- Leading knowledge mobilization efforts for an IC&I food recovery and rescue project convened by Canada's Circular Innovation Council
- Building a food waste research and advocacy network in Canada in partnership with the National Zero Waste Council

### Lecturer

Department of Geography and Environment, Western University  
September 2022 to December 2023

- Courses taught: *Environment & Development Challenges; Environment, Economy, and Society*
- Instructor effectiveness score of 6.7/7 (provided by students)

### Doctoral Fellow & Graduate Research Assistant

Department of Geography and Environment, Western University  
September 2019 to July 2023

- Conducted mixed methods research on knowledge, attitudes, and behaviours related to household food wasting and food waste reduction in partnership with the City of London, Ontario
- Responsibilities: project oversight and conceptualization, ethics reporting, data collection (including waste composition studies, surveys, and interviews), data analysis (quantitative and qualitative), and writing and publishing manuscripts

### Professor

School of Language and Liberal Studies, Fanshawe College  
January 2019 to present

- Courses taught: *Climate Change, Adaptation, & Innovation; Principles of Global Sustainability*
- Instructor competency score of 4.9/5 (provided by students)

### Sustainability Consultant

Waste Solutions  
May 2018 to June 2019

- Reviewed processes for managing waste and waste diversion activities for a diverse range of clients across the IC&I sector
- Created meaningful recommendations to increase diversion and capture rates, improve waste collection and handling processes, and inspire cultural change within organizations
- Wrote reports and ensured compliance with appropriate legislation
